About me

Business Consultant with over 3 years of experience delivering business transformation, supply chain, public sector, and banking projects. Experienced in PMO activities, business analysis, financial and operational reporting, process optimization, stakeholder management, and systems implementation. Proven ability to analyze complex business scenarios, transform data into actionable insights, and support strategic decision-making.

Professional Experience | Relevant Projects (*Non-Exhaustive*)

[July, 2023 – Present] – Deloitte

Serviço Provincial de Saúde (SPS) [Public Sector]

- Conducted analysis and consolidation of financial, operational, and procurement data to support strategic decision-making.
- Developed weekly, monthly, and quarterly management reports and executive dashboards.
- Monitored budget execution, procurement performance, and key operational indicators.
- Identified trends, risks, inconsistencies, and improvement opportunities through data-driven analysis.
- Designed and implemented reporting tools to improve information quality, efficiency, and transparency.
- Supported stakeholders in planning, monitoring, and performance management activities.
- Delivered knowledge transfer and training sessions on reporting tools, dashboards, and data management processes to enhance user adoption and capability development.
- Performed PMO activities, including project planning, progress tracking, governance reporting, risk and issue management, stakeholder coordination, and status reporting to support effective project delivery.

Electricidade de Moçambique (EDM) [Public Sector]

- Supported the end-to-end Supply Chain Transformation Program.
- Acted as PMO, coordinating project activities, tracking deliverables, timelines, risks, issues, and governance actions.
- Conducted As-Is assessments of procurement and logistics processes to identify gaps, inefficiencies, and improvement opportunities.
- Facilitated process workshops and led the mapping, analysis, and design of future-state (To-Be) procurement and logistics processes.
- Participated in the implementation of the Supplier Portal, ensuring alignment between business requirements and solution delivery.

- Developed procurement planning and logistics analysis tools to support operational decision-making.
- Designed analytical models for inventory management and procurement optimization.
- Supported supplier management, contract management, and logistics process improvements.
- Conducted data analysis to identify inefficiencies and opportunities for cost reduction and process enhancement.
- Facilitated stakeholder workshops and knowledge-sharing sessions to support process adoption and business readiness.
- Delivered knowledge transfer sessions and user training on tools, processes, and reporting solutions to strengthen internal capabilities and ensure sustainable solution adoption.

Banco de Moçambique [Banking Sector]

- Supported the governance, planning, and execution of Core Banking transformation initiatives.
- Performed PMO activities, including project planning, progress tracking, governance reporting, risk and issue management, action tracking, and stakeholder coordination.
- Gathered, analyzed, and validated business and functional requirements across multiple stakeholders and business units.
- Led requirements workshops, stakeholder engagement sessions, and process review meetings to ensure business alignment and solution readiness.
- Conducted business process analysis, process mapping, and process improvement assessments to support transformation objectives.
- Led the mapping and design of the Fixed Assets (Asset Accounting) process in SAP, ensuring alignment with business requirements, controls, and target operating model.
- Managed project reporting, governance documentation, risk logs, issue registers, action trackers, and executive communications.
- Coordinated cross-functional teams, monitored deliverables and milestones, and supported decision-making through structured governance processes.

Standard Bank [Banking Sector]

- Supported the mobilization and governance setup of a large-scale Core Banking Transformation Programme.
- Coordinated programme planning activities, including roadmap development, milestone tracking, and dependency management across multiple workstreams.
- Established programme governance structures, reporting frameworks, and project control mechanisms to support effective decision-making.
- Prepared executive reports, programme status updates, Steering Committee packs, RAID logs, and governance documentation.
- Managed programme schedules, coordinated workshops, and facilitated stakeholder engagement activities across business and technology teams.
- Supported requirements gathering activities by coordinating workshops, documenting actions, tracking decisions, and ensuring stakeholder alignment.

- Maintained programme risk, issue, assumption, and dependency registers, ensuring timely escalation and resolution of critical items.
- Monitored programme progress against key milestones, identifying schedule risks and supporting mitigation planning.
- Assisted in resource planning and team mobilization activities, supporting the onboarding and coordination of programme resources.
- Supported communication management activities, including meeting coordination, status reporting, action tracking, and stakeholder communications.
- Produced management dashboards and performance reports to provide visibility of programme health, delivery progress, risks, and key decisions.
- Collaborated with business, technology, vendors, and implementation partners to support delivery planning and programme execution.
- Ensured programme documentation was maintained in accordance with governance standards and audit requirements.
- Supported the definition and monitoring of key programme KPIs, deliverables, and success measures.

Excel Trainings [Internal]

- Led the design and delivery of Excel training programs for new consultants and analysts.
- Developed training content, practical exercises, and business-oriented use cases covering topics from foundational to intermediate Excel skills.
- Facilitated classroom and hands-on learning sessions, ensuring effective knowledge transfer and participant engagement.
- Provided ongoing support, mentoring, and troubleshooting assistance to trainees.
- Trained participants in data analysis, reporting, dashboards, data validation, lookup functions, Pivot Tables, and productivity techniques.
- Supported capability-building initiatives aimed at improving analytical and reporting skills across the organization.

[March – June; 2023] - Deloitte | Internship as a Programmer

- Develop, test and maintain software applications for internal and external customers.
- Participate in all phases of the software development life cycle.
- Collaborate with multidisciplinary teams to define, design, and launch new features.
- Identify and fix software problems, improving performance and usability.
- Apply agile software development methodologies.
- Implement technical solutions aligned with customers' business objectives.
- Ensure code quality through reviews and testing.

[Setembro;2022 – Fevereiro; 2023] | Instituto Nacional de Estatística (INE) | Internship as a IT

- Contributed to the development and maintenance of internal business applications and databases while supporting systems and network administration activities.
- Assisted in the administration, monitoring, and support of IT infrastructure, including servers, networks, databases, and end-user services.
- Provided technical support, troubleshooting, and maintenance for systems, applications, and network environments.
- Participated in infrastructure management, system configuration, and operational support to ensure service availability and reliability.
