About me

I am a professional with experience in project management, data analysis, strategic planning, and supply chain management, with a strong focus on results and continuous improvement. I believe that consistent results are achieved through collaboration, open communication, and people development. Throughout my career, I have invested in building trusting relationships with colleagues and clients, promoting collaborative work environments focused on knowledge sharing as the basis for excellence.

Experience *(Non-exhaustive)*

[July, 2023 – Present] - Deloitte | Business Analyst

- Facilitated alignment sessions with stakeholders to clarify business objectives, expectations, and project priorities.
- Worked closely with Product Owners in requirement refinement sessions to ensure clarity, feasibility, and business value.
- Conducted requirements gathering and analysis, producing clear documentation of functional and technical requirements.
- Designed and mapped business processes (AS-IS / TO-BE), identifying improvement and automation opportunities.
- Participated in agile ceremonies such as sprint planning, daily stand-ups, reviews, and retrospectives.
- Prepared reports, dashboards, and project documentation to support decision-making and ensure project transparency.
- Acted as a liaison between stakeholders, Product Owners, and development teams, ensuring shared understanding and successful delivery.
- Developed financial control and procurement tools, improving accuracy, transparency, and traceability in budget execution.

- Prepared a Financial Execution and Procurement Tools Management Manual, establishing standards, procedures, and operational guidelines for internal teams.
- Conducted continuous monitoring of financial execution, including systematic analysis of payments, procurement processes, and compliance with procurement rules.
- Produced monthly, quarterly, and semi-annual reports consolidating operational and financial data to support strategic decision-making.
- Monitored procurement planning and budget execution to ensure alignment with the annual plan and organizational priorities.
- Analysed compliance between approved budgets, purchases, and payments, identifying deviations, proposing corrective measures, and reinforcing financial discipline.

[March – June; 2023] - Deloitte | Internship Programmer

- Develop, test and maintain software applications for internal and external customers.
- Participate in all phases of the software development lifecycle.
- Collaborate with multidisciplinary teams to define, design, and launch new features.
- Identify and fix software problems, improving performance and usability.
- Apply agile software development methodologies.
- Implement technical solutions aligned with customers' business objectives.
- Ensure code quality through reviews and testing.
