About me

Business Consultant with over 4,5 years of experience delivering business transformation, supply chain, public sector, and banking projects. Experienced in supporting business transformation, PMO, process improvement, and performance management initiatives across public and private sector organizations. Strong background in business analysis, project governance, reporting, stakeholder management, and operational excellence. Experienced in facilitating workshops, analyzing complex business challenges, designing data-driven solutions, and supporting the successful delivery of transformation projects. Passionate about leveraging data, technology, and structured methodologies to improve organizational performance and create measurable business value.

Professional Experience (*Non-Exhaustive*)

[July, 2022 – Present] – Deloitte | Business Consultant

- Conducted PMO activities including project planning, schedule management, progress tracking, governance reporting, risk and issue management, dependency tracking, action monitoring, and coordination of project deliverables.
- Prepared and delivered executive reports, dashboards, governance packs, and presentations, providing actionable insights to support strategic decision-making and operational performance.
- Developed integrated management control, reporting, and performance monitoring solutions, consolidating financial, contractual, project, and operational data to enhance governance, visibility, and decision-making.
- Produced steering committee materials, executive briefings, and status reports highlighting project progress, risks, dependencies, financial performance, and strategic recommendations.
- Managed stakeholder engagement across business, operational, technology, vendor, and leadership teams, facilitating workshops, governance forums, executive communications, and cross-functional collaboration to ensure alignment and successful delivery.
- Gathered, analysed, documented, and validated functional and non-functional requirements, serving as the liaison between business stakeholders and development teams to ensure effective solution design, delivery, and adoption.
- Conducted business process analysis, process mapping, gap assessments, and future-state process design to support process optimisation, business transformation, and operational improvement initiatives.
- Delivered training, knowledge transfer, mentoring, and capability-building initiatives, including the development of user guides and supporting documentation to promote sustainable adoption of processes, tools, and business solutions.

[March – June; 2022] - Deloitte | Internship as a Programmer

- Develop, test and maintain software applications for internal and external customers.
- Participate in all phases of the software development lifecycle.

- Collaborate with multidisciplinary teams to define, design, and launch new features.
- Identify and fix software problems, improving performance and usability.
- Apply agile software development methodologies.
- Implement technical solutions aligned with customers' business objectives.
- Ensure code quality through reviews and testing.

[October;2021 – January; 2022] - Deloitte | Internship IT Help Desk

- Contributed to the development of the FUE desktop application using C# (.NET Framework) and SQL Server, supporting the integration and management of statistical data from multiple sources.
- Assisted in system testing, database management, and application maintenance activities.
- Provided technical support for network infrastructure, ensuring reliable connectivity and communication across the organization.
- Supported troubleshooting, maintenance, and configuration of network and IT infrastructure components.
